Chapter 1: The Draught of Living Death

The Draught of Living Death is one of the most powerful sleeping potions in existence. To prepare it, begin b

Step 1: Add powdered root of asphodel to the cauldron.
Step 2: ~~Stir the potion clockwise three times.~~
Step 3: Add the infusion of wormwood.
Step 4: Heat on a medium flame for seven minutes.
Step 5: ~~Add two drops of sopophorous bean juice.~~
Step 6: Stir counter-clockwise once.
Step 7: Wave your wand over the mixture.

The completed potion should be a smooth, lilac-coloured liquid.

Counter-clockwise, seven times. The book has it backwards.

No. CRUSH it with the flat of the blade. Releases the juice far better.

Three drops. Two is never enough.

Chapter 2: Antidotes

The general principle of antidote creation states that you must identify each individual ingredient of the poiso

Golpalott's Third Law states that the antidote for a blended poison will be equal to more than the sum of the

The only useful thing Golpalott ever wrote. The rest is padding.

Common mistakes include:
- Using too much unicorn horn, which causes the antidote to become corrosive.
- Forgetting to add a bezoar as a safety measure.
- Heating the mixture above 200 degrees, which destroys the active compounds.

Always keep a bezoar stone at hand when working with unknown poisons.

DO THIS. Not optional. A bezoar has saved more lives than any antidote.
